

# BE BROKERS Expands Global Reach with New Dubai Office and Fintech

*BE BROKERS opens a new office in Dubai, expanding its global presence and delivering cutting-edge fintech solutions to brokers across international markets.*

DUBAI, DUBAI, UNITED ARAB EMIRATES, September 9, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- BE BROKERS, a provider of financial technology solutions for brokers, has announced the opening of a new office in Dubai, further expanding its global operations. The company aims to support brokers by delivering advanced trading platforms, risk management tools, and seamless integrations with global financial markets. This new office will allow BE BROKERS to enhance its presence in the Middle East and better serve clients in the region.

BE BROKERS opens a new office in Dubai, expanding global reach and offering innovative fintech solutions to brokers worldwide

Michael Christos, CEO of BE BROKERS, commented on the expansion: “The opening of our Dubai office is an important step in our global growth strategy. It allows us to further engage with brokers in the region and provide tailored fintech solutions to meet their specific needs.”

We are not just a technology provider!”

*Warren Franqui VP of Marketing, BE BROKERS*

Solutions for Brokers  
BE BROKERS provides a range of technology solutions for

brokers, including:

**Trading Platforms:** BE BROKERS offers platforms that provide [real-time market data](#), fast trade execution, and detailed analytics to support brokers in their trading decisions.

**Web Terminals & Mobile Applications:** The company’s web terminals and mobile apps, available

on iOS and Android, enable brokers to monitor trades, manage portfolios, and execute transactions from various locations.

**Risk Management Systems:** BE BROKERS includes risk management tools designed to assist brokers in mitigating risks, with features such as automated stop-loss and real-time monitoring.

**Seamless Integrations:** BE BROKERS' platform integrates with global financial markets and third-party tools, offering brokers the ability to streamline their operations without managing multiple systems.

#### Commitment to Technology

BE BROKERS continues to integrate advanced technologies such as artificial intelligence (AI) and blockchain into its platform. These innovations support brokers by offering predictive insights and enhancing transaction security and transparency.

Christos added, "We remain focused on incorporating emerging technologies that provide brokers with valuable insights and improve operational efficiency."

#### Looking Ahead

The Dubai office represents an important part of BE BROKERS' international expansion. As the company grows, it continues to develop solutions that support brokers' operational efficiency and address the evolving demands of financial markets.

#### About BE BROKERS

BE BROKERS is a financial technology company that provides brokers with trading platforms, risk management systems, and integrations with global financial markets. Headquartered in Cyprus, BE BROKERS recently opened an office in Dubai to support its growing client base in the Middle East.
