

# Automotive Camera global market 2024 to reach \$15.77 billion by 2028 at rate of 12.0%

*The Business Research Company's  
Automotive Camera Global Market  
Report 2024 – Market Size, Trends, And  
Global Forecast 2024-2033*

LONDON, GREATER LONDON, UNITED  
KINGDOM, September 16, 2024

[/Einpresswire.com/](https://www.einpresswire.com/) -- The automotive  
camera market has experienced robust  
growth in recent years, expanding from

\$8.92 billion in 2023 to \$10.03 billion in 2024 at a compound annual growth rate (CAGR) of 12.4%. The growth in the historic period can be attributed to growing emphasis on vehicle safety, adoption of advanced driver assistance systems (ADAS), increasing regulatory requirements for rearview and surround-view cameras, rise in demand for parking assistance systems and collision avoidance, integration of cameras in autonomous vehicle development.

Who Are The Key Players Shaping The Automotive Camera Market Trends?

Key players in the automotive camera market include Continental Automotive GmbH, Robert Bosch GmbH Mobility Solutions, Valeo SA, Aptiv PLC, Magna International Inc., Mobileye NV.

What Are The Dominant Trends In Automotive Camera Market Growth?

Technological advancements have emerged as a key trend gaining popularity in the automotive camera market. Major companies operating in the automotive camera market are focused on developing new technological solutions to reinforce their position in the market.

How Is The Global Automotive Camera Market Segmented?

- 1) By Vehicle Type: Passenger Vehicle, Light Commercial Vehicle, Heavy Commercial Vehicle
- 2) By View Type: Single View System, Multi Camera System
- 3) By Technology: Digital Cameras, Infrared Cameras, Thermal Cameras
- 4) By Application: Park Assist, Advanced Driver-Assistance Systems

Geographical Insights: Asia-Pacific Leading The Automotive Camera Market

Asia-Pacific was the largest region in the automotive camera market in 2023. Asia-Pacific is expected to be the fastest growing region in the forecast period. The regions covered in the [automotive camera market report](#) are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Automotive Camera Market Definition

An automotive camera refers to a camera that is used to capture high-quality video and images to increase visibility and ensure driver safety. Automotive cameras are often implanted with cutting-edge computer vision algorithms for true machine vision systems, which can delay the vital data needed for driver assistance. These cameras help the driver with easy parking, better performance, and quality to support customers for safer and more comfortable driving.

Automotive Camera Global Market Report 2024 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years

- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global automotive camera market report covering trends, opportunities, strategies, and more

The Automotive Camera Global Market Report 2024 by [The Business Research Company](#) is the most comprehensive report that provides insights on [automotive camera market size](#), automotive camera market drivers and trends, automotive camera market major players, automotive camera competitors' revenues, automotive camera market positioning, and automotive camera market growth across geographies. The automotive camera market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
