Stress Disorder, Substance Abuse Disorders, Eating Disorders, and Others), Service (Emergency Mental Health Services, Outpatient Counselling, Home-based Treatment Services, Inpatient Hospital Treatment Services, and Others), Age Group (Pediatric, Adult, Geriatric), and Region 2024-2032," the [global mental health market size reached US\\$ 435.2 Billion in 2023](#). Looking forward, IMARC Group expects the market to reach US\$ 567.3 Billion by 2032, exhibiting a growth rate (CAGR) of 2.9% during 2024-2032.

## Mental Health Market Trends:

The global market is majorly driven by the growing recognition and awareness of mental health issues. There has been a substantial reduction in stigma associated with mental health disorders, leading to greater acceptance and a stronger push for effective mental health services and support.

Moreover, the increasing prevalence of mental health disorders, such as depression, anxiety, and substance abuse, is another critical factor. Factors such as stress, lifestyle changes, and societal pressures contribute to a rise in mental health conditions, creating a heightened demand for therapeutic services, counseling, and psychiatric care. The World Health Organization's emphasis on mental health as a critical component of overall health further accelerates the need for comprehensive mental health services.
