

"Japanese Rail Sim", A new type of train operating game that has arrived

TOKYO, JAPAN, September 13, 2024 /EINPresswire.com/ -- A new type of train operating game that has arrived! Enjoy operating trains in Japan with realistic footage!

Sonic Powered is pleased to announce a new game that will allow you to enjoy the experience of operating Japanese trains on Nintendo Switch™, PlayStation® 4, and Steam®.

Japanese Rail Sim - This game is a new type of train operating game that uses video taken from the cab of a real train, to make you feel like you are really operating a train through live-action video. The game is set in a Japanese sightseeing area, such as Kyoto or Hakone, and you can also enjoy tourist information on famous sightseeing spots where you can feel the nature, history, and culture of Japan.

The operating method is simple and easy to play, but the game is very in-depth because mastering it requires accurate operating with respect to stopping points and times.

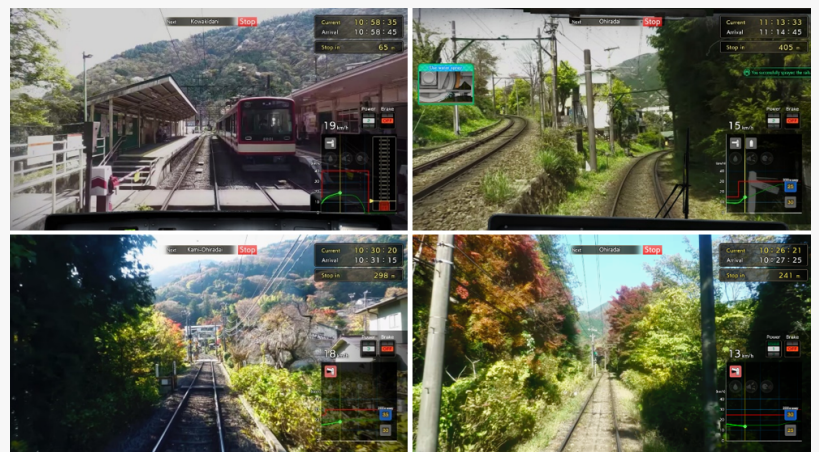

A realistic operating experience, easy yet hard to master, relaxing sightseeing - this is the "Japanese Rail Sim" series. We hope you will enjoy playing it!
