

ITXPROS Announces Availability of Innovative Shining 3D Aoralscan Elite

First-of-its-kind intraoral scanner with integrated photogrammetry technology set to transform dental implantology

TAMPA, FL, UNITED STATES, September 11, 2024 /EINPresswire.com/ --

ITXPROS is proud to announce the release of the First of its kind Shining 3D Aoralscan Elite, which is available starting today. This revolutionary intraoral scanner is the first to combine traditional scanning capabilities with advanced Intraoral Photogrammetry Technology (IPG), setting a new standard in digital dentistry.

Transforming Dental Implantology

The Aoralscan Elite represents a significant advancement in dental care, especially for implant procedures and offers the following:

Two-in-one Solution: This First of its kind technology eliminates the need for 2 separate devices to capture anatomy and implant positions by combining both features in a single device.

Uncommon Precision: IPG technology ensures global accuracy and consistency in full-mouth edentulous implants and All-on-X procedures.

Streamlined Workflow: The two-in-one system integrates intraoral scanning and photogrammetry, simplifying scanbody positioning and scanning.

Enhanced Efficiency: Rapid recognition and precise calculation of positional posture accelerate the temporary and final restoration processes.

Benefits for Dental Professionals

Dr. Ahmad 'AK' Khater, CEO of ITXPROS, notes, "With the Aoralscan Elite, taking intraoral scans for edentulous patients is incredibly efficient. The scanner's precise intraoral registration ensures

accuracy without the hassle of additional photogrammetry equipment. It's an important advancement for dental professionals."

Key features include:

AI-powered scanning with real-time data optimization

Motion sensing for hands-free operation

Automatic margin line extraction

Comprehensive analysis tools including bite analysis and undercut detection

Improving Patient Experience

The Aoralscan Elite aims to provide enhanced clinical capabilities and an improved patient experience through:

Fast and more comfortable scans,

Improved diagnostic accuracy

Reduced waiting times for results and treatments

Availability

The Shining 3D Aoralscan Elite is available through ITXPROS starting September 10, 2024. Dental professionals interested in elevating their practice with this cutting-edge technology are encouraged to contact ITXPROS for more information.
