

# Planet TV Studios Unveils Groundbreaking "New Frontiers" Episode Featuring LARVOL, Leader in Oncology Data Intelligence

*Planet TV Studios' New Frontiers to feature LARVOL's world-wide leader in oncology data intelligence, airing early 2025, hosted by Gina Grad.*

SAN FRANCISCO, CA, UNITED STATES, September 11, 2024 / EINPresswire.com/ -- [Planet TV Studios](#)

is excited to announce an extraordinary new episode of its acclaimed series "New Frontiers," set to air in the first quarter of 2025.

This episode will take an in-depth look at [LARVOL](#), a pioneering force in [Oncology Data Intelligence](#), and their mission to revolutionize the pharmaceutical, biotech, and healthcare industries with cutting-edge solutions.

"New Frontiers" has become synonymous with spotlighting innovators who are reshaping industries and challenging the status quo. In this upcoming episode, viewers will be introduced to LARVOL's technologies and the unique ways they empower the world's largest life sciences companies to make strategic, informed decisions that drive progress and innovation.

## LARVOL: Reinventing Data Intelligence in Oncology

Founded in 2004, LARVOL has emerged as a leader in Oncology Data Intelligence, delivering tailored software solutions and insightful intelligence that are crucial for pharmaceutical, biotech, and healthcare sectors. The company's innovative tools and services are designed to provide their clients with a competitive edge, enabling them to stay ahead in the rapidly evolving landscape of oncology.

Unveiling LARVOL's Suite of Innovative Services

LARVOL's comprehensive offerings include:

- CLIN: A platform with over a decade's worth of oncology clinical trial data, providing accessible, comprehensive insights into cancer research trends.
- CONF: An invaluable resource for conference planning, indexing relevant abstracts, posters, and presentations to maximize the value of attending industry events.
- OMNI: A robust tool for Key Opinion Leader (KOL) monitoring, offering deep insights into clinical trials, publications, and social media activities, allowing clients to engage effectively with KOLs.
- PULSE: A dynamic market intelligence service providing curated reports on industry trends, helping companies prioritize critical developments related to their key drug assets.

Additionally, LARVOL offers specialized services like IMPACT for trend analysis in oncology and REDRAW for clinical trial data visualization, ensuring that clients have access to high-quality, actionable data.

#### A Culture of Innovation and Inclusivity

Beyond its technical expertise, LARVOL prides itself on a forward-thinking company culture. As a remote-first organization since its inception, LARVOL has recently embraced the metaverse, reflecting its commitment to innovation and global collaboration. The company's values—symbolized by their mascot, the LARVOL Tiger—emphasize agility, focus, and resilience, driving their success and fostering a culture of transparency and respect.

#### Looking Ahead: The Future of Oncology Data Intelligence

As LARVOL continues to push the boundaries of what's possible in Oncology Data Intelligence, their ongoing dedication to innovation is set to transform the way pharmaceutical and biotech companies operate, with a direct impact on improving patient outcomes worldwide.

#### About Gina Grad

Planet TV Studios is thrilled to have Gina Grad return as the host of this episode. Grad, a celebrated author, podcast host, and radio personality, is known for her engaging presence and dynamic energy. She will bring a unique perspective to the episode, enhancing the storytelling and ensuring a captivating viewing experience.
