

# The Spa by RescueMD Now Offering Microneedling Services for Skin Enhancement

ALLEN, TX, UNITED STATES, September 12, 2024 /EINPresswire.com/ -- [The Spa by RescueMD](#) is excited to announce the addition of professional [microneedling](#) services to its comprehensive range of skincare treatments. With a focus on delivering advanced skin rejuvenation, these microneedling treatments are designed to help clients achieve smoother, firmer, and more radiant skin. The spa's experienced practitioners employ cutting-edge techniques and state-of-the-art equipment to ensure safe, personalized, and effective treatments for every patient.

Microneedling, or collagen induction therapy, is a minimally invasive procedure that stimulates the body's natural healing process by creating tiny micro-injuries in the skin. These controlled injuries encourage the production of collagen and elastin, essential proteins responsible for maintaining youthful skin. This process results in a noticeable improvement in skin texture, reduction of fine lines, and an overall more youthful appearance. Additionally, microneedling can minimize the appearance of scars, stretch marks, and enlarged pores while boosting topical skincare products' effectiveness by enhancing their absorption.

At The Spa by RescueMD, each microneedling treatment begins with a thorough skin assessment and consultation to ensure the treatment is tailored to the individual's unique skin concerns and goals. After a careful evaluation, the treatment involves cleansing the skin and applying a topical anesthetic to ensure maximum comfort. A sterile, single-use microneedling device is then used to create controlled micro-injuries in the targeted areas. Following the treatment, a soothing serum aids the healing process, and patients receive detailed aftercare instructions to ensure optimal results.

What sets The Spa by RescueMD apart is the expertise and dedication of its practitioners, who have extensive experience in microneedling and other advanced skin rejuvenation techniques. The spa uses the latest microneedling technology, ensuring that treatments are effective, safe,

and tailored to each client's needs. The personalized approach and a comfortable and professional environment guarantee a rejuvenating experience for every patient.

To make this transformative treatment more accessible, The Spa by RescueMD is offering several pricing options. First-time microneedling patients can enjoy a special introductory rate of \$199, which includes numbing. A single session is priced at \$249 for subsequent treatments, with numbing available for an additional \$49 per session. For those looking for long-term results, a package of three sessions is available for \$599 (numbing not included).

To schedule a consultation or inquire [about](#) the microneedling specials, contact The Spa by RescueMD at 972-332-4397 or via email at [office@myrescuemd.com](mailto:office@myrescuemd.com).
