

Stere Powers Once Insurance Group's Entry into the Watch and Jewelry Coverage Market

NEW YORK, NY, UNITED STATES,
September 12, 2024 /

EINPresswire.com/ -- [Stere](#), a leading innovator in insurance technology, proudly supported [Once Insurance Group](#) in revolutionizing the small valuables insurance market with the launch of an innovative product offering. Once Insurance Group's debut marks a transformative approach to watch and jewelry coverage, providing customers with a single, one-time premium for comprehensive five-year protection, resulting in approximately 35% savings over traditional insurance options for similar valuables.

Once Insurance Group's new insurance policy, powered by Stere's digital infrastructure, can be purchased seamlessly online at the point of sale and thereafter, with no appraisal required. This policy involves a one-time purchase and payment, covering the item for five years with no recurring monthly premiums, no annual renewals, and no premium hikes.

"We are thrilled to partner with Once Insurance Group in delivering an unprecedented insurance experience," said Dogan Kaleli, CEO at Stere. "Our cutting-edge API platform enabled Once Insurance to offer a streamlined, customer-centric and scalable product that eliminates the complexities and recurring costs traditionally associated with watch and jewelry insurance." Stere's technology allows Once Insurance to provide a fully digital process where coverage can be quoted, purchased, and obtained through their website in under three minutes. The policy covers items up to \$5,000 in value, with plans to expand this offering soon.

In addition, Stere's API-as-a-Service feature supports Once Insurance Group's integration of embedded and non-embedded links online, QR codes, and self-service kiosks in brick-and-mortar stores. This functionality empowers jewelry buyers to access insurance seamlessly at the point of sale, ensuring a hassle-free experience.

"By leveraging Stere's powerful platform, Once Insurance is able to offer unmatched simplicity and savings to customers looking to protect their cherished valuables, Daniel Siegel, Director of Insurance Markets for Once added. "We are excited to see how our partnership will continue to innovate and transform the insurance landscape."
