

# Dream Forest by Hsiang Chen Lu Wins Silver in A' Interior Design Awards

*Eco-Friendly Elementary School Library Recognized for Excellence in Sustainable Design and Innovation*

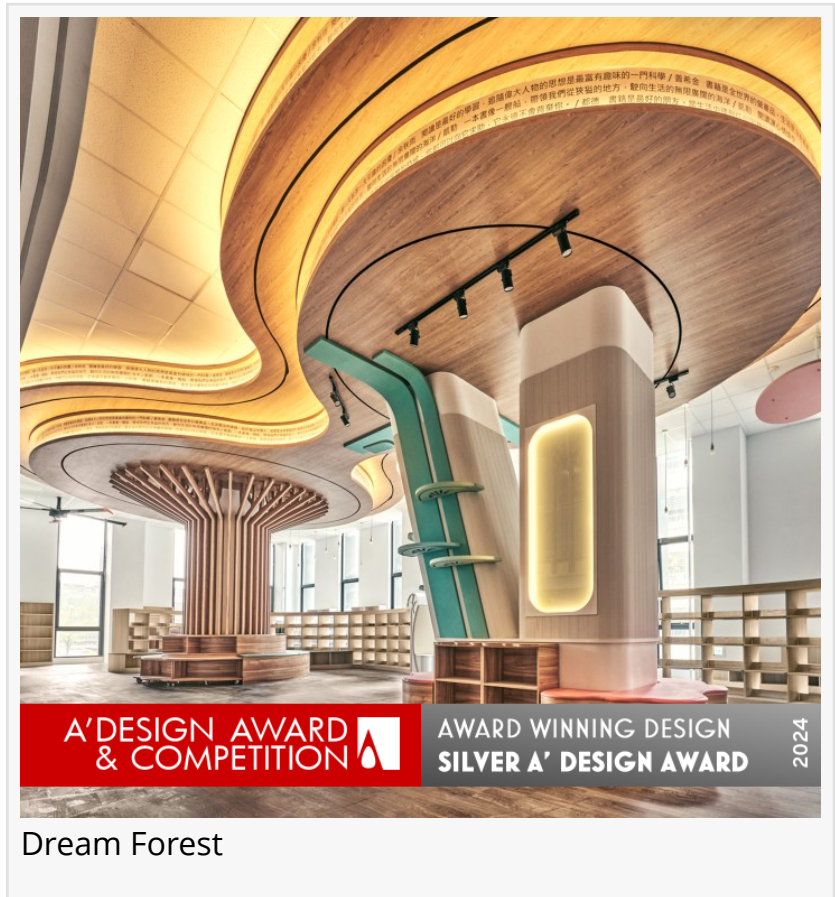

COMO, CO, ITALY, September 13, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected recognition in the field of [interior](#) design, has announced Dream Forest by [Hsiang Chen Lu](#) as a Silver winner in the Interior Space and Exhibition Design category. This prestigious accolade highlights the significance of the Dream Forest project within the interior design industry, positioning it as a notable example of sustainable design and innovation.

The Silver A' Interior Space, Retail and Exhibition Design Award holds great relevance for the interior design

community and its stakeholders. By recognizing projects like Dream Forest, the award promotes the adoption of eco-friendly practices and inspires designers to create spaces that prioritize the well-being of both users and the environment. This recognition not only benefits the winning design team but also sets a benchmark for the industry, encouraging the development of more sustainable and innovative interior spaces.

Dream Forest stands out as an exceptional elementary school library that seamlessly integrates recycled wood, abundant natural light, and a focus on knowledge and culture. The use of sustainable materials creates a healthy environment for children while reducing the library's energy consumption. The versatile space features well-designed reading areas, interactive zones, and cultural exhibits, fostering a love for learning and creativity among young minds.

The Silver A' Design Award serves as a testament to the talent and dedication of the Dream

Forest design team. This recognition is expected to inspire Hsiang Chen Lu and their collaborators to continue pushing the boundaries of sustainable interior design in future projects. By setting a high standard for eco-friendly and innovative spaces, Dream Forest has the potential to influence industry practices and contribute to the development of more environmentally conscious learning environments.
