

# TYPE S AI Dash Cams Leave Competition in The Dust

*The T200 PLUS and T400 PLUS dash cams are setting new industry standards with their comprehensive AI-Powered Driver Assistance capabilities*

CA, UNITED STATES, September 26, 2024 /EINPresswire.com/ -- TYPE S Auto, a leader in automotive safety technology, is proud to announce a significant surge in sales for its revolutionary [AI-powered dash cams](#), the [TYPE S T200 PLUS AI Dash Cam](#) and [TYPE S T400 PLUS AI Dash Cam](#). These innovative products are transforming older vehicles by equipping them with advanced driver assistance features typically found only in modern luxury cars.

The T200 PLUS and T400 PLUS dash cams are setting new industry standards with their comprehensive AI-Powered Driver Assistance capabilities. Unlike competitors who offer limited front-only or rear-only coverage, these models provide full front and rear AI-powered features, making them unmatched in the market.

“Our T200 PLUS and T400 PLUS dash cams offer a level of safety and convenience that is simply unparalleled,” said Benson Leung, President of ADC Solutions Auto LLC. “These devices bring modern luxury

TYPE S AI Dash cam - Minimize the blind spots

TYPE S AI Dash cam - Front & rear collision warning

TYPE S AI Dash cam - Lane departure warning

car features to any vehicle, significantly enhancing driver safety and awareness. No other product on the market offers the same combination of front and rear AI-powered features. We are proud to lead the way in making these advanced technologies accessible to all drivers.”

The AI-powered features of the T200 PLUS and T400 PLUS include:

- Forward Collision Warning: Alerts drivers to potential collisions ahead, helping to prevent accidents.
- Rear Collision Warning: Monitors the rear of the vehicle and warns of any potential hazards.
- Lane Departure Warning: Warns drivers if the vehicle starts to drift out of its lane.
- Pedestrian Collision Warning: Detects pedestrians and alerts the driver to avoid accidents.
- Blind Spot Detection: Monitors the vehicle's blind spots and alerts the driver to potential dangers.
- Stop & Go Reminder: Assists in traffic by alerting drivers when the car ahead starts moving.

These features work together to provide a comprehensive safety system that enhances the driving experience, making older cars as safe as modern luxury vehicles. As a result, the T200 PLUS and T400 PLUS AI dash cams are rapidly becoming the preferred choice for drivers who want to upgrade their vehicle’s safety features without purchasing a new car.

The TYPE S T200 Plus and T400 Plus are available for \$199.99 and \$249.99 respectively at [typesauto.com](https://typesauto.com).

#### About TYPE S Auto

For over 20 years, TYPE S Auto has been committed to innovation and quality, offering drivers the best automotive accessories for vehicle personalization and safety. TYPE S has lit the way, given drivers the power to continue the journey, provided visibility where it's needed most, and helped record every moment. In the dynamic world of automotive enhancements, TYPE S Auto stands as a beacon of innovation and quality.
