

HP launches Small Form Factor Desktop AI PC with focus on power and security

HP has added to its recently announced portfolio of AI PCs with the launch of the HP Elite Small Form Factor 805 G9 Desktop PC.

SCOTTSDALE, AZ, UNITED STATES,
September 13, 2024 /

EINPresswire.com/ -- HP has added to its recently announced portfolio of AI PCs with the launch of the HP Elite Small Form Factor 805 G9 Desktop PC. Engineered for desktop workers looking to take productivity to the next level, workers experience boosted connectivity to take advantage of cloud-based AI applications like Copilot in Windows1 with Wi-Fi 7 capability2.

[GHA Technologies](#) recommends HP business desktops for companies

looking to power their most demanding applications. The highly secure and easy to manage HP Elite 805 SFF is equipped with an AMD Ryzen™ 8000 series processor and AMD RDNA™ onboard graphics, and an NPU that work together to balance workloads and get the most out of cloud-based AI applications.

“It is HP's mission is to enable businesses to unlock the power of AI,” said John Bahaveolos, Senior Vice President, HP PC Navigator at GHA Technologies, “Organizations are embracing AI at an unprecedented rate. HP’s new desktop AI PC, paired with GHA Technologies’ IT Support and Integration Services can help businesses equip their employees with high-performance, secure devices capable of utilizing AI's potential, both now and in the future.”

The HP Elite SFF 805 G9 Desktop PC is protected by HP Wolf Security to ensure business data stays safe. HP Wolf Security for Business creates a hardware-enforced, always-on, resilient defense.

About GHA Technologies: GHA Technologies is one of the largest, private ESOP (Employee Owned) held computer companies in America. For over 34 years, GHA Technologies has been committed to delivering the best technology with a superior service experience to enable its customers to focus on their success.

1 Copilot in Windows requires Windows 11. Some features require an NPU. Timing of feature delivery and availability varies by market and device. Requires Microsoft account to log in. Where Microsoft in Windows is not available, the Copilot key will lead to the Bing search engine. See <http://aka.ms/WindowsAIFeatures>.

2 Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 7 (802.11BE) functionality requires compatible OS and will operate in prior 802.11 specs until available. Wi-Fi 7 also requires compatible Intel® or AMD Ryzen™ processor, and a Wi-Fi 7 router, sold separately. Wi-Fi 7 is backwards compatible with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported. The specification for 802.11BE is a draft specification and is not final. If the final specification differs from the draft specification, it may affect the ability of the device to communicate with other 802.11BE devices.
