For 40+ years, traditional supply chains have used SAP technology to account for their money and materials. But new supply chains use technology differently: They focus on timely customer fulfillment and faster cash flow. Impact? The new outperformed the traditional in the last

20 years by a factor of 63.

Ecoservity's solution powers traditional operations on SAP platform so they can compete with the new, delivering better customer fulfillment and higher cash flow.

Users benefit from:

- Business-ready information and actions from >450K SAP models
- >1.3m micro-APIs from live SAP information with native security and simplified with 0-code
- Full & delta from >850K SAP tables

"Traditional supply chains are shifting their priority from accounting to customer fulfillment and faster cash flow in order to compete in the new marketplace," said Anupam Jaiswal, Founder and CEO, Ecoservity. "We power this shift with reliable, ready-for-operations and easy-to-use technology for SAP customers."

Jake Zborowski, General Manager, Microsoft Azure Platform at Microsoft Corp., said, "We welcome USB4SAP to Azure Marketplace, where global customers can find, try, and buy from

among thousands of partner solutions. Thanks to trusted partners like Ecoservity Inc, Azure Marketplace is part of a cloud marketplace landscape predicted to grow revenue 500% from 2022 to 2025."

The Azure Marketplace is an online market for buying and selling cloud solutions certified to run on Azure.

The Azure Marketplace helps connect companies seeking innovative, cloud-based solutions with partners who have developed solutions that are ready to use.
