### Global Peace Agreement (GPA): A Key Component

A pivotal element of WSandN VISION2030 is the Global Peace Agreement (GPA), which aims to outlaw all forms of terrorism, armed conflicts, and wars under international law. The GPA is

anticipated to significantly impact the global goal of eradicating poverty by reallocating resources currently spent on conflict management and recovery. This comprehensive framework is designed to foster international cooperation, facilitate peaceful dispute resolution, and promote a culture of non-violence.

The GPA is available for signing online at [signforpeace.wsandn.org](https://signforpeace.wsandn.org) and on the WSANDN homepage. These platforms allow individuals globally to support and endorse the Agreement. Achieving the target of 4 billion signatures is crucial for its success and signifies a collective commitment to a peaceful and just world.

WSandN will collaborate with governments, organizations, businesses, and communities to achieve these goals. The strategy involves fostering partnerships, engaging in joint projects, and sharing resources. Progress will be tracked through measurable indicators, and strategies will be adapted based on continuous feedback. Raising awareness and advocating for supportive policies are crucial components of this initiative and the Organization is running campaigns to educate the public and drive support for poverty eradication efforts.
