About the New York Jets

The New York Jets were founded in 1959 as the New York Titans, an original member of the American Football League (AFL). The Jets won Super Bowl III, defeating the NFL's Baltimore Colts in 1969. In 1970, the franchise joined the National Football League in the historic AFL-NFL merger that set the foundation for today's league. As part of a commitment to its fan base through innovation and experiences, the team has created initiatives such as, its trailblazing Jets Rewards program, a state-of-the-art mobile app, and 1JD Entertainment, a comprehensive content platform that gives fans greater access to the team across all digital and social platforms. The organization takes great pride in a long-standing, year-round commitment to their community. These programs are funded by the New York Jets Foundation and look to positively influence the lives of young men and women in the tri-state area, particularly in disadvantaged communities. The organization supports the efforts of the Lupus Research Alliance, youth football and numerous established charitable organizations and causes sponsored by the NFL. The New York Jets play in MetLife Stadium, which opened in 2010, and are headquartered at the Atlantic Health Jets Training Center in Florham Park, New Jersey.
