

# How to Downgrade iOS 18 to iOS 17 Without Data Loss: iMyFone Fixppo's Latest Update Makes It Seamless

*iMyFone Fixppo Introduces a One-Click Solution for Downgrading iOS 18 While Protecting User Data*

NY, UNITED STATES, September 16, 2024 /EINPresswire.com/ -- As iOS 18 officially rolls out, users eager to try the latest version may quickly realize that their device's performance or app compatibility isn't up to their expectations. For those looking to revert back to iOS 17, iMyFone Technology has launched a major update to its renowned [iMyFone Fixppo](https://www.imyfone.com/fixppo) tool, offering a seamless solution to downgrade iOS 18 to iOS 17 without any data loss.

iMyFone Fixppo's latest update, version 9.2.7, addresses one of the most significant concerns when downgrading an iOS version—losing precious data. With its one-click backup and restore features, users can now revert to the stable iOS 17 while maintaining the integrity of their data, from photos to messages, without the need for complex steps or technical expertise.

Why iMyFone Fixppo is the Ideal Tool for Downgrading iOS 18:

1. No Data Loss: Before downgrading, users can securely back up all their device data with just one click, ensuring they won't lose important information during the process.
2. One-Click Restore: Once the downgrade to iOS 17 is complete, users can instantly restore their backed-up data, making the transition seamless and hassle-free.
3. Simple Downgrade Process: The tool is designed with an intuitive interface, allowing users to easily downgrade their iOS 18 system to a previous version without needing iTunes or iCloud.

[How to Downgrade iOS 18 to iOS 17 Without Data Loss](#) Using iMyFone Fixppo:

1. One-Click Backup: Open iMyFone Fixppo on your computer and choose the 'Back Up and Restore Data' option. This feature allows users to back up all data, including photos, messages, contacts, and apps, before proceeding with the downgrade.

2. Downgrade iOS 18 to iOS 17: After completing the backup, select the 'iOS Upgrade/Downgrade' option from the main menu. Follow the on-screen instructions to safely revert to iOS 17.
3. One-Click Data Restore: After the downgrade, return to the 'Back Up and Restore Data' option to recover all your saved data, ensuring a seamless user experience without data loss.

"We understand how frustrating it can be for users when a new iOS version doesn't meet their expectations," said Lee, Product Manager at iMyFone Technology. "With Fixppo's latest update, our goal is to provide a stress-free solution that allows users to confidently revert to iOS 17 while keeping all their data intact."

#### Additional Features of iMyFone Fixppo's iOS 18 Update:

1. Instant Fixes for iOS 18 Bugs: The new version is equipped to handle common iOS 18 issues, such as system crashes, app failures, and performance glitches, offering users quick fixes for a stable experience.
2. Seamless iOS Management: In addition to downgrading, Fixppo simplifies both the upgrading and restoring processes for iOS devices, giving users full control over their system updates without needing technical expertise.

#### About iMyFone Technology

Founded in 2015, iMyFone Technology is a leading global provider of consumer software solutions, specializing in iOS system repair, data recovery, and smartphone unlocking. With over 10 million users worldwide, iMyFone continues to deliver innovative solutions that enhance digital device management for both professionals and everyday users.
