

Rising Trends of India Aluminum Extrusion Market will Witness Substantial Growth With in-detailed Competitor Analysis

The increasing demand for lightweight materials in construction and the superior corrosion resistance and durability of aluminum extrusions are key factors.

WILMINGTON, DE, UNITED STATES, September 14, 2024 /EINPresswire.com/ -- According to a report by Allied Market Research, the [India aluminum extrusion market](#), valued at \$1.3 billion in 2019, is projected to reach \$2.5 billion by 2027, registering a CAGR of 8.3% between 2020 and 2027. The report provides in-depth insights into evolving market trends, key strategies, prominent segments, the value chain, investment opportunities, and the competitive landscape.

Market Drivers:

The increasing demand for lightweight materials in construction and the superior corrosion resistance and durability of aluminum extrusions are key factors fueling market growth. However, the market faces challenges due to the high initial costs. On a positive note, the rising demand for customized extrusions opens new avenues for growth in the coming years.
