Brisk Health's cutting-edge mobile app, developed by [Brisk Technologies](#), offers patients an unprecedented level of flexibility and convenience, allowing them to seamlessly connect to healthcare providers through clinic visits, home visits, or telemedicine. The company's holistic approach to healthcare prioritizes wellness by addressing the root causes of health issues, ensuring comprehensive care for every patient.

“

Our mission has always been to transform healthcare by putting the patient first and making care more accessible and convenient.”

Jesse Clark

“Our mission has always been to transform healthcare by putting the patient first and making care more accessible and convenient,” said Jesse Clark, CEO of Brisk Health. “This \$100 million capital investment is a game-changer for us. It will allow Brisk Health to expand rapidly across Colorado, providing communities with the care they need without the traditional barriers of time and location.”

The new funding will support the company's strategy to open additional state-of-the-art clinics throughout Colorado, as well as expand its network of providers for home visits and telemedicine services. In addition, Brisk Health plans to invest in new technologies to enhance its mobile app, offering patients more control over their healthcare journeys and improving overall outcomes.

Brisk Health's first clinic, located in Lakewood, Colorado, has already set a high standard for patient care, utilizing modern facilities and advanced technology to create an optimal healthcare experience. With the expansion of its clinical footprint, Brisk Health aims to bring the same level of innovative, high-quality care to communities across the state.

This investment marks a significant milestone in Brisk Health's journey to reshape the healthcare landscape, making it more accessible, patient-focused, and technologically advanced.
