

Global AI-Powered Personal Finance Management Market Size, Share, And Growth Analysis For 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UNITED KINGDOM, September 17, 2024

/EINPresswire.com/ -- The AI-powered personal finance management market has experienced robust growth in recent years, expanding from \$1.35

billion in 2023 to \$1.48 billion in 2024 at a compound annual growth rate (CAGR) of 9.8%. The growth in the historic period can be attributed to the widespread use of smartphones and tablets, the rise of fintech companies, the explosion of big data, the transition from traditional banking to digital banking, and the demand for personalized financial advice.
