recovery and less discomfort.

Keyhole Neurosurgery

Using smaller incisions for brain surgery, Dr. Rao provides a less invasive option with quicker recovery times.

Dr. Rao's Expertise and Training

Dr. Rao's extensive medical training and global experience form the foundation of his expertise. After completing his medical degree and specialization in neurosurgery, he pursued further fellowships in North America, gaining expertise in:

[Minimally Invasive Spine Surgery](#)

Dr. Rao specializes in techniques that minimize recovery time and reduce surgical trauma, offering patients faster

Intraoperative Neurophysiological Monitoring (IONM)

A pioneer in India, Dr. Rao uses IONM to monitor the nervous system in real-time during complex surgeries, significantly reducing risks.

Advanced Technology at Dr. Rao's Hospital

Dr. Rao's Hospital is equipped with cutting-edge technology that supports minimally invasive procedures and enhances patient outcomes:

IONM (Intraoperative Neurophysiological Monitoring)

This technology allows real-time monitoring of the nervous system during surgery, improving safety in delicate brain and spine surgeries.

Neuronavigation Systems

These imaging tools provide precise 3D mapping of the brain and spine, helping Dr. Rao perform complex surgeries with great accuracy.

[Endoscopic Keyhole Surgery](#) Tools

These advanced tools enable minimally invasive procedures with smaller incisions, leading to quicker recovery and less post-operative discomfort.

Minimally Invasive Spine Surgery Instruments

The hospital's advanced spine surgery equipment allows for the treatment of complex spinal conditions with minimal impact on patients, reducing recovery times.

Patient-Centered and Ethical Care

Dr. Rao's practice is built on transparency and a commitment to ethical care. Patients are fully informed about their diagnosis, treatment options, and expected outcomes, allowing them to make educated decisions about their healthcare.

Informed Decision-Making

Dr. Rao ensures that patients and their families understand the complexities of their conditions and treatment plans.

Customized Treatment Plans

Each patient receives a tailored approach to care, with treatment plans based on their specific condition, medical history, and lifestyle.

Non-Invasive First Approach

While Dr. Rao is a skilled surgeon, he prioritizes non-invasive treatments where possible, only recommending surgery when absolutely necessary.

Conditions Treated at Dr. Rao's Hospital

Dr. Rao treats a wide range of neurological and spinal conditions, including:

Brain Tumors

Using keyhole neurosurgery, Dr. Rao safely removes brain tumors with minimal impact on surrounding tissue.

Spinal Disorders

Dr. Rao addresses issues such as herniated discs and scoliosis using minimally invasive spine surgery, reducing recovery time for patients.

[Epilepsy and Seizure Disorders](#)

Dr. Rao provides specialized treatment for patients suffering from epilepsy, utilizing both medical and surgical interventions.

Cerebrovascular Diseases

Patients with strokes, aneurysms, or other cerebrovascular conditions receive expert care through advanced techniques like neuronavigation.

National and International Impact

Dr. Rao's Hospital has become a referral center for complex neurosurgical and spinal cases across India. Specialists frequently consult Dr. Rao for his expertise in handling difficult-to-treat conditions. His hospital's success in patient outcomes and innovative care models has also attracted international patients seeking specialized treatment.

Dr. Rao's global training and continuous engagement with leading medical institutions worldwide keep him at the forefront of neurosurgical advancements. This international recognition further enhances the hospital's reputation as a center for excellence in neurological and spine care.

Conclusion

Dr. Rao's Hospital is redefining neurological, neurosurgical, and spine care in Guntur and across

India. With advanced medical technology, personalized care, and a focus on ethical practices, the hospital provides world-class treatment to patients facing complex conditions.

Under Dr. Mohana Rao Patibandla's leadership, the hospital continues to grow as a trusted destination for patients seeking specialized neurological and spinal care. The combination of cutting-edge technology and patient-first philosophy positions Dr. Rao's Hospital as a leader in the field, both nationally and internationally.
