Utilizing “Space & Sustainability Compacts” to Advance UN Sustainable Development Goals.  
Contributions this year will prepare for the Summit of the Future that will take place during the  
UNGA's 79th Session in 2024.

About the Science Summit at the UN General Assembly (UNGA 79)

The International Science Council and its partners have organized the 10th edition of the Science  
Summit around the 79th United Nations General Assembly (UNGA 79) on 10-28 September  
2024. The Summit will examine what enabling policy, regulatory, and financial environments are  
needed to implement and sustain the science mechanisms required to support genuinely global  
scientific collaborations across continents, nations, and themes.

### About Space & Sustainability Compact Initiative

The Space and Sustainability Compact Agreement Initiative was ideated by Alliance for Collaboration in the Exploration of Space - ACES Worldwide (ACES Worldwide), a non-profit organization that aims to strengthen international alliances by supporting equitable space policies, laws, regulations, sustainability, safety, education, training, and capacity-building. ACES Worldwide encourages and facilitates space providers and potential space end-users to enter into non-binding Space and Sustainability Compact Agreements regarding space systems assisting in achieving SDGS and thus the compact agreement contains, inter alia, the type of space systems used, specific space application to be provided parties to the Agreement, projected future use and goals and SDG Goals addressed. Leadership of N50 project are part of ACES Worldwide's Global Advisory Board.

### About the Institute of Space Commerce

The Institute of Space Commerce is a non-partisan non-profit organization dedicated to the study of the economics and policy of commercial activity in space. Through its fellowships, scholarships, and other research and engagement activities, the Institute is accelerating the growth of a commercially viable space economy, ensuring a safe and sustainable space environment, and advocating for the advancement of the space sector for the betterment of humankind and the natural world. The Institute is an independent affiliate of the International Space University and the Dr. Kalpana Chawla Scholarship Program.
