

Long-Term Care Processes Get Another Positive Boost: Reside Admission's VendorConnect Makes Its Debut

CHICAGO, IL, UNITED STATES, September 16, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- An exciting new

advancement in long-term care (LTC) admissions is live in market as of today. [Reside Admissions](#), the leader in transforming LTC admissions beyond PDF to an integrated workflow management platform, today introduced VendorConnect, its latest admissions simplification innovation.

Who would've believed there would be a day when we would not have to chase down consent forms? Reside's VendorConnect has been a revelation for us."

Hillel Efron, COO of Ovitsky Vision Care

Every moment counts in LTC. Reside VendorConnect automates vendor paperwork during the admission process, reducing administrative burden and allowing providers to focus more on resident care.

"We're weaving a digital spiderweb of seamless connections across long-term care," says Ari Shabat, CEO of Reside.

"VendorConnect is our latest thread, linking vendors directly into the admission process. No more staff chasing

forms, no more vendors waiting on paperwork. We're automating the entire flow, routing documents instantly to where they need to go. It's a triple win – operators save time and money, vendors get their forms faster, and everyone can focus more on providing exceptional resident care."

Key features of VendorConnect include:

- Automated form delivery during admissions
- Secure, instant document routing
- Enhanced compliance safeguards

This launch represents another step in Reside's quest to transform long-term care admissions from a lengthy, outdated process into an efficient, effective, and fast experience for all.

Early adopters of VendorConnect are already seeing significant benefits. Hillel Efron, COO of Ovitsky Vision Care, shares his experience: "Who would've believed there would be a day when we would not have to chase down consent forms? Reside's VendorConnect has been a revelation

for us."
