The benefit of cross-border B2C E-commerce market is that a seller gains the first-mover advantage, which allows them to build strong brand awareness with potential customers before their competitors do. Moreover, cross border ecommerce benefits both sellers and brands as there is access to new markets as no matter how healthy the sales volume are at the moment, cross-border selling can grow by opening online storefront to more untapped markets. Furthermore, online trade between B2C for imported goods such as spices, crockeries, home décor, and carpets is increasing among consumers. They can easily buy and sell these products on e-commerce websites, thereby consumers can purchase products from across the world sitting at the comfort of their home. In addition, sellers get to conquer new territories by extending access to their products to millions of potential customers who do not have the chance to buy their products. Thus, these are the major cross-border B2C E-Commerce market trends.

The report offers detailed segmentation of the global cross-border B2C e-commerce market based on offering, payment method, category, end user, and region.
