

Chongwen Langyue by Qun Wen Wins Silver in A' Architecture Awards

Qun Wen's Innovative Exhibition Center Design Recognized for Excellence by Prestigious A' Design Awards

COMO, CO, ITALY, September 18, 2024 /EINPresswire.com/ -- The A' [Design Award](#), one of the world's most respected and well-recognized awards in the field of [architecture](#) design, has announced Chongwen Langyue by Qun Wen as a Silver winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the significance of Chongwen Langyue as an outstanding example of architectural excellence within the industry.

Chongwen Langyue's innovative design approach addresses current trends and needs in the architecture industry

by creating a vibrant urban public space that serves as a landmark for the project area. The design's practical benefits, including improved quality of public life and positive contributions to the community, align with industry standards and practices while advancing them through its unique features and functionality.

The award-winning design stands out in the market through its distinctive rearrangement of functions and interspersed blocks, which create a visually striking and engaging shape. The outdoor landscape harmoniously integrates with the surrounding environment using linear design language and geometric structures, while the interior's fashionable and futuristic atmosphere is achieved through the use of metallic materials and interspersed geometry of large volumes.

This recognition from the A' Architecture, Building and Structure Design Award serves as

motivation for Qun Wen and the design team to continue striving for excellence and innovation in future projects. The award inspires the team to further explore the potential of creating vibrant urban spaces that positively impact communities and contribute to the advancement of architectural design.

Chongwen Langyue was designed by a talented team led by Qun Wen, with contributions from Jianning Ma, Shixin Gao, Xiao hai, Yue Zhao, Rui Zhang, and Chuanyu Dai.
