RELEASE

[Cambria](#) Introduces Four New Designs That Combine the Natural Beauty of Stone with Unparalleled Performance

Cambria, the leading producer of American-made quartz surfaces, proudly unveils four new designs that showcase the company's commitment to innovation and design excellence. These latest additions reflect the brand's dedication to combining the timeless beauty of natural stone with the superior performance of quartz, continuing to set new industry standards.

Stunning Avalene Kitchen

“At Cambria, we pride ourselves on our commitment to listening to the market and studying global design trends,” said EVP of Design Summer Kath. “These new designs reflect our dedication to meeting market demands and popular colorways while expanding our innovative and proprietary Inverness™ textural design aesthetic. By introducing a rich dark option and a warm mid-tone, we’ve ensured that there’s something for everyone in this latest collection.”

Cambria*

[Avalene™](#)

The four new designs—Avalene™, Inverness Blakeley™, Inverness [Stonestreet™](#), and Everleigh Warm™—demonstrate Cambria’s ability to respond to

market demands for beautifully designed surfaces while pushing the boundaries of what is

possible with quartz.

Avalene™

Avalene introduces a design reminiscent of a classic white marble with soft veining, a stunning addition to Cambria's extensive palette. It features subtle deep green veins traversing a cool white background infused with elegant charcoal marbling and swirling gray hues. Avalene meets the growing demand for designs that incorporate natural-looking materials into homes, filling a gap in the palette for designs with green accents that are also neutral. Available in Jumbo-sized slabs, polished and Cambria Matte® finishes, and 2cm and 3cm, Avalene is part of the Marble Collection™ in Cambria's Signature Series.

Inverness Blakeley™

Inverness Blakeley offers a sophisticated balance of taupes, soft gray tones, and a crisp white background, creating a captivating blend of warm and cool tones. Delicate debossed Inverness™ veins add subtle contrast and texture, catering to the demand for designs with movement that are more understated in color and pattern. This design, which is available in Jumbo-sized slabs, polished and Cambria Matte® finishes, and 2cm and 3cm, is part of the Marble Collection™ in Cambria's Luxury Series.

Inverness Stonestreet™

Inverness Stonestreet is a luxurious dark design featuring a deep charcoal gray and black background with soft creamy whites and rich Inverness™ veins. This design meets the market trend for darker, textured surfaces while offering the superior performance of quartz. Available in Jumbo-sized slabs, Cambria Satin™ finish, and 2cm and 3cm, Inverness Stonestreet is part of the Black Marble Collection™ in the Coordinates Series.

Everleigh Warm™

Everleigh Warm expands on the popular Everleigh™ design, introducing a warm background with gray and sand-honey hues. This design blends bold patterns with soft, tone-on-tone elements, aligning with the shift toward warmer, more organic interior environments. Everleigh Warm is available in Jumbo-sized slabs, polished and Cambria Matte® finishes, and 1cm, 2cm, and 3cm,

and is part of the Marble Collection™ in the Luxury Series, with an option for bookmatching.

Expansion of 1cm Thickness

Cambria offers a newly curated design palette in 1cm thickness, now available in 19 iconic designs. This thinner option is perfect for a variety of applications, including weight-sensitive installations, bookmatching, backsplashes, fireplaces, showers, wall cladding, and thermoforming. Three of the added designs—Brittanicca Gold Warm™, Brittanicca Warm™, and Skara Brae™—can be backlit. The 1cm thickness offers versatility for creative and functional uses. To explore the designs available in 1cm, visit CambriaUSA.com/1CM.
