EINPresswire.com/ -- Today, [Mendelson Consulting](#), a leader in business consulting and cloud services, is proud to announce its latest initiative to help small businesses harness the transformative power of artificial intelligence (AI).

By leveraging AI in software applications and tools such as [Intuit Enterprise Suite](#) and Microsoft Copilot, Mendelson Consulting aims to enhance efficiency, accuracy, and decision-making for small businesses, driving performance and growth.

AI is one of the most transformative technologies of our time, with a wide range of immediate applications. In various business areas, AI can significantly enhance efficiency, improve the quality of information, and support better decision-making. However, the complexity and risks associated with AI can be daunting for many businesses.

Recognizing these challenges, Mendelson Consulting and its [Noobeh](#) cloud services division offer solutions to help businesses implement AI effectively.

Their services focus on automating processes, improving the quality of operational and financial data, and analyzing the data to deliver real and immediate business benefits, while also mitigating potential risks.

"AI can be a game-changer for small businesses, and it is crucial to approach it with a clear strategy and understanding," said Mario Nowogrodzki, CEO at Mendelson Consulting. "Our goal is to help businesses navigate the complexities of integrating AI into their business and financial

operations, ensuring they can safely leverage its full potential to accelerate their performance.”

Mendelson Consulting provides solutions and services designed to be accessible and practical, giving businesses the tools they need to thrive in a competitive market. By integrating AI into their work and workflows, businesses can achieve greater efficiency, accuracy, and informed decision-making, ultimately driving growth and success.
