

LSBF and Deloitte Collaborate to Enhance Professional Training

SINGAPORE, September 19, 2024 /EINPresswire.com/ -- London School of Business and Finance (LSBF) Singapore Campus is thrilled to announce a collaboration with Deloitte to co-develop a suite of upskilling programmes tailored for junior to mid-level professionals.

This collaboration aims to seamlessly integrate academic learning, professional qualifications, and real-world application and equip participants with the essential tools needed to accelerate their career progression.

Programme Highlights and Stackable Workshops

Building on LSBF's established expertise as an ACCA Approved Learning Partner and a leading provider of the Singapore Chartered Accountant Qualification, and combined with Deloitte's extensive industry experience, this programme offers a series of highly practical short workshops.

A distinctive feature of this programme is the ability for participants to stack workshops to earn a certificate that enhances both their credibility and industry recognition. The overarching goal is to enhance participants' professional profiles, providing them with advanced skills that ensure they remain competitive in the post-qualification job market.

Tailored for Junior to Mid-Level Professionals

The programme's curated workshops provide clear, in-depth exploration of critical topics like Enterprise Risk Management and Financial Analysis, tailored for finance and accounting professionals across various industries. Participants will receive advanced training that not only boosts their career prospects but also fulfils their Continuing Professional Development (CPD)

requirements.

Michael Gomez, Director (Deloitte Learning Solution), Deloitte Singapore, said: "Deloitte is collaborating with LSBF to offer a programme that aligns with our commitment to professional development and excellence. This initiative will fuel professionals' ambitions for career growth by equipping them with industry-recognized skills that are essential for thriving in today's ever-changing market."

Future Plans

Looking forward, LSBF and Deloitte plan to expand the programme with additional workshops and specialised tracks tailored to meet the needs of various industries. The two organisations' long-term vision is to equip learners with adaptable skill sets that align with the demands of the modern workforce.

Rathakrishnan Govind, CEO of LSBF Global, commented: "Collaborating with Deloitte allows us to provide unparalleled access to industry insights and expertise. Together, we aim to create a transformative learning experience that will benefit our students both locally and on the global stage."
