

TuxCare Expands Presence in South America through New Strategic Partnership

PALO ALTO, CA, UNITED STATES,
September 24, 2024 /

EINPresswire.com/ -- [TuxCare](#), a global innovator in enterprise-grade cybersecurity for Linux, today announced that Asunción, Paraguay-based [Information Security Services S.A. \(ISS\)](#) now serves as a strategic partner in the South America region, offering TuxCare's [KernelCare Enterprise](#) live patching solution.

TuxCare

As the only solution on the market that can automatically provide live patching for all popular Linux distributions, KernelCare Enterprise enables organizations to enjoy ongoing peace of mind while also avoiding costly vendor-specific live patching solutions or support. KernelCare Enterprise uniquely eliminates complexities surrounding vulnerability patching, removing the need for downtime, reboots or maintenance windows.

"As TuxCare continues to grow its presence around the globe, we embrace this new partnership with ISS, as it harnesses the long history that ISS enjoys in the region as well as its successful track record of partnering with fast-growing industry innovators," said Michael Canavan, Chief Revenue Officer at TuxCare. "We're confident that ISS will prove to be a key local partner."

"We are pleased to announce the alliance with TuxCare, a company that offers an innovative solution to apply live updates to the main Linux distributions without the need for reboots, avoiding leaving systems idle and thus reducing or eliminating maintenance windows," said Ricardo Vera Falcon, Chief Executive Officer at ISS.
