

Cryobank America Expands to Orange County, California

Cryobank Orange County Offers Sperm Donor Recruitment, Sperm Banking, Fertility Preservation For The Transgender Community, and More!

COSTA MESA, CA, UNITED STATES,
September 19, 2024 /

EINPresswire.com/ -- Cryobank America, one of the industry's leading sperm banks, is proud to announce its expansion into Orange County, California. This significant milestone marks a new chapter in Cryobank America's mission to provide exceptional reproductive services while upholding its core values.

Since its establishment in 2017, Cryobank America has remained steadfast in its philosophy that every collaboration should always serve the best interests of society, and every action taken should be aimed at helping those in need, irrespective of profit. Cryobank America collaborates with healthcare professionals, researchers, and organizations dedicated to advancing reproductive medicine. By fostering these partnerships, Cryobank America continues to contribute to advancing scientific knowledge and improving reproductive healthcare. Additionally, the affordable rates implemented across their facilities are a testament to this uncompromising commitment.

Cryobank America has consistently strived to redefine the standards of excellence within the sperm banking industry. By expanding its donor recruitment efforts to Orange County, Cryobank America aims to extend its reach and provide improved accessibility to first-class sperm donors for clients seeking donor sperm worldwide.

Furthermore, Cryobank Orange County will offer various services to cater to diverse reproductive

needs. These include Personal Sperm Banking, which allows individuals to store their sperm for future use; specialized Fertility Preservation services designed explicitly for the Transgender Community; comprehensive Semen Analysis, Chromosome Analysis, and Genetic Testing options for couples and individuals experiencing infertility, ensuring a thorough assessment of their reproductive health.

The global infertility rates, affecting approximately [1 in 6 individuals](#), are experiencing a concerning upward trend and are projected to continue rising. In addition, there is currently an unprecedented demand from LGBTQ+ couples for family planning options, with [80% of same-sex couples](#) using anonymous sperm donors. It is this

pressing need that motivates Cryobank America to expand its sperm donor catalog and fertility preservation services, intending to provide all-inclusive support to the LGBTQ+ community, single moms by choice, and individuals and couples facing challenges related to infertility.

“

The decision to open Cryobank Orange County was driven by a deep understanding of the region's unique needs and a desire to make a positive impact on the local community.”

Sanjay Kumar

Cryobank America is proud to offer a proprietary semen processing method that delivers the highest concentration of motile sperm cells per 1-milliliter vial, making their products superior. This original method also allows Cryobank America and its satellite labs to provide competitive rates for premium donor sperm and personal sperm banking through cryopreservation. Cryobank America emphasizes its rigorous screening process for sperm donors, ensuring that only the most elite individuals join their Sperm Donor Program.

Scientist Sanjay Kumar, CEO and Founder of Cryobank America, explains: "The decision to open Cryobank Orange County was driven by a deep understanding of the region's unique needs and a desire to make a positive impact on the local community."

Mr. Kumar amassed extensive experience working alongside industry leaders in reproductive
