

# Tick Repellent Market Growth Analysis with Investment Opportunities For 2024-2033

*The Business Research Company's Tick Repellent Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033*

LANDON, GREATER LONDON, UNITED KINGDOM, September 23, 2024 /EINPresswire.com/ -- The tick repellent market has experienced robust growth in recent years, expanding from \$0.83 billion in 2023 to \$0.88 billion in 2024 at a compound annual growth rate (CAGR) of 6.0%. The growth in the historic period can be attributed to changing climate patterns leading to extended tick seasons, stringent regulations promoting the use of tick repellents, rising veterinary recommendations, growth in pet travel and mobility, and globalization of pet product markets.

What Is The Estimated Market Size Of The Global Tick Repellent Market And Its Annual Growth Rate?

You Can Now Pre Order Your Report To Get A Swift Deliver With All Your Needs "

*The Business Research Company*

The tick repellent market is projected to continue its strong growth, reaching \$1.12 billion in 2028 at a compound annual growth rate (CAGR) of 6.1%. The growth in the forecast period can be attributed to growing pet populations globally, increasing preference among consumers for natural and organic tick repellents, pet humanization trend, increasing focus on preventive healthcare, and increasing availability of pet health insurance.

## Growth Driver Of The Tick Repellent Market

The growth in pet ownership is expected to propel the growth of the tick repellent market going forward. Pet ownership is rising due to increased emotional companionship needs and the growing recognition of pets' positive impact on mental health. Tick repellents for pets are used to deter ticks from attaching to animals, providing protection against tick-borne diseases such as Lyme disease and Ehrlichiosis.

North America was the largest region in the tick-repellent market in 2023. The regions covered in the tick repellent market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

## Tick Repellent Market Definition

Tick repellents are products designed to deter ticks from attaching to and feeding on animals, primarily pets such as dogs and cats. They typically come in various forms, such as topical treatments, collars, and oral medications, containing active ingredients that repel ticks through chemical or natural means. These products are essential for preventing tick bites, which can transmit diseases such as Lyme disease and Rocky Mountain spotted fever to pets and humans.

alike.
