Growth Driver Of The Interdental Cleaning Products Market

The rising prevalence of dental issues is expected to propel the growth of the interdental cleaning products market going forward. Dental issues refer to various conditions affecting the teeth, gums, and oral cavity, including cavities, tooth decay, gingivitis, and periodontitis. The rising prevalence of dental issues can be attributed to factors such as poor oral hygiene, genetic factors, hormonal changes, smoking, and chronic diseases. Interdental cleaning products help remove plaque and food particles between teeth, reducing the risk of dental issues and gum diseases.
