Growth Driver Of The Snus Market

The increasing demand for smokeless tobacco is expected to propel the growth of the snus market going forward. Smokeless tobacco refers to tobacco products that deliver nicotine and other chemicals to the user without burning, avoiding inhalation of smoke. The demand for smokeless tobacco is due to stricter smoking bans, a perception of being a healthier alternative

to smoking, effective marketing strategies, continuous product innovations, and cultural acceptance in certain regions. Snus is used in smokeless tobacco by placing it between the upper gum and lip, where it releases nicotine and flavor directly into the bloodstream through the oral mucosa, providing a nicotine experience without the need for smoking or chewing.
