About Graduate Certificate in Entrepreneurship at Florida State University

A graduate certificate in Entrepreneurship will develop a student's ability to analyze industry-specific issues from a global perspective, foster critical thinking, and enhance the tangible and intangible skills needed for today's highly competitive, yet lucrative field of entrepreneurship. The graduate certificate in Entrepreneurship will offer students case-study learning while providing opportunities for innovative, hands-on application. Students will take introductory graduate courses in entrepreneurship and leadership and then specialized courses within the current existing graduate programs. Courses are designed and kept relevant through input from the college's full-time faculty, and the approximate 30 Entrepreneurs-In-Residence (EIR) employed in other academic units across FSU's campus. The linchpin and focal point of this action is the creation of an interdisciplinary entrepreneurship curriculum.

Students from all academic disciplines will be encouraged to pursue this graduate certificate so they may expand their knowledge in their chosen field by tying it to an entrepreneurial career, thus enabling students to pursue their passion and at the same time create a successful

entrepreneurial venture around that chosen field.
