

WINTERGREEN ANNOUNCES PathPRO™ 5" PATHWAY STAKE MADE IN U.S.A.

Wintergreen Corporation proudly announces Wintergreen Lighting® PathPRO™ 5" Pathway Stake, made in the USA with a new patent pending design.

ALPHARETTA, GA, UNITED STATES, September 24, 2024 / EINPresswire.com/ -- Wintergreen Corporation proudly announces Wintergreen Lighting® PathPRO™ 5" Pathway Stake, made in the USA with a new patent pending design. The PathPRO™ stake is heavy-duty commercial grade and made from a durable, UV-protected, nylon/fiberglass composite, and is designed to ensure years of stunning light displays.

The PathPRO™ can accommodate commercial wire gauges ranging from 18 to 20 AWG and holds SPT1 and SPT2 insulative wire thickness. The PathPRO™ can display lights both horizontally and vertically, with the option to alternate bulb direction or form a pattern, limited only by your imagination. Pair these pathway stakes with the beauty of OptiCore® bulbs and the magic begins. They are ideal for outlining driveways, pathways, and sidewalks.

Wintergreen proudly announces a three-year warranty to match its high-quality light strings and bulbs. For more information on the PathPRO™, visit the Wintergreen Corporation website.

Wintergreen Lighting's PathPRO™ Stakes are now available through Wintergreen's wholesale channel. For more information or to become a wholesale customer, visit wintergreencorp.com.

Wintergreen Lighting PathPRO Pathway Light Stake

Launching a domestic product line has been a long-term goal, and we're thrilled to finally see it come to fruition. We are committed to increasing domestic production across our product range."
