Over the past five years, the dental industry has seen a significant increase in consolidation through private equity-backed DSO affiliations. With market conditions constantly changing and interest rates rising, it's essential for dental practices to understand their options and, if desired, chart a course toward a successful DSO transaction. This webinar will provide dentists with the necessary insight to maximize their outcomes from a DSO affiliation.

The webinar will cover various topics, including the impact of market conditions on the DSO marketplace and the best way to position a dental practice for a successful DSO

transaction. Attendees will gain an understanding of EBITA multiples, practice valuations, and deal structures from a DSO perspective. In addition, case studies will be reviewed, along with a discussion of the five most common mistakes sellers make in a DSO transaction. This informative webinar will also feature a live Q&A session with an opportunity for attendees to ask the speakers questions directly.

Featured webinar speakers are Brannon Moncrief, Principal and CEO of McLerran & Associates,

and Jerry Iacovano, Principal of LLI Advisory Group.
