"His valuable contributions to our guided study cohort have benefitted his colleagues in the program, and I do not doubt that through his executive and board service, he will equally bring value to those with whom he serves."

The Certificate in Risk Governance® is awarded to those who have completed The Board Members' Course on Risk® - an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the

governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, C-level executives, and well-known authors from five continents. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else.

"This is an incredible program with valuable easy-to-consume videos and materials that provide a solid foundation for risk governance as a board director," said Mr. Ferreira. "I am far better prepared for my board tasks now than before starting the course," he continued.
