

# Application Server Market to Grow at a Surprising CAGR of 12% from 2022 to 2031

WILMINGTON, DE, UNITED STATES, September 23, 2024 / EINPresswire.com/ -- According to the report published by Allied Market Research, the [global application server market size](#) generated \$17 billion in 2021, and is projected to reach \$53.3 billion by 2031, growing at a CAGR of 12% from 2022 to 2031.

Rise in penetration of P2P networks and prominent use of application servers in smart devices to drive the growth of the global application server market. In addition, rapid breakthroughs in information technology and the utilization of cloud-computing tools will create new growth opportunities for the global market. The surge in demand for contactless payments and the rise in remote working during the COVID-19 pandemic proliferated the growth of global market.
