MELBOURNE, VICTORIA, AUSTRALIA, September 24, 2024 /

EINPresswire.com/ -- Red Piranha, Australia's leading developer and manufacturer of advanced cybersecurity solutions, is thrilled to announce that we have won two awards at the 2024 Australian Technologies Competition (ATC), the prestigious "Australian Technology Company of the Year" award and the winner in our category "Critical Tech and Cybersecurity" award.

This national competition celebrates groundbreaking Australian technologies with global potential, and our win underscores our commitment to delivering cutting-edge, Australian-made, and defence-ready cybersecurity solutions, reinforcing true sovereign capability.

This year, the ATC attracted over 130 applicants, narrowing them down to 62 semi-finalists and eventually 20 finalists. Our Executive Director, Kane Bennett, delivered the final pitch, and after rigorous rounds of competition, our flagship product, the Crystal Eye [Threat Detection, Investigation and Response](#) (TDIR) Consolidated Security Platform, was recognised for its best-in-class detection and response capabilities and its architectural forward thinking.

Our technology is designed to simplify the complexities of modern cybersecurity, providing automated actionable intelligence and defending against Advanced Persistent Threats (APTs), known and unknown malware, and [Living-off-the-Land](#) (LOTL) attacks.

“We were thrilled to participate in Australia's most esteemed technology awards. With such high quality competition and the participation of leading technology companies from around Australia, we are delighted by this accomplishment and we are very proud of the entire Red Piranha team.” said Kane Bennett, Executive Director of Red Piranha.

We are proud to represent Australian-made, sovereign cybersecurity solutions on the global stage, and we extend our gratitude to Scalare Partners for facilitating such an impactful program.
