Global Market Report 2024 – Market Size,
Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UNITED
KINGDOM, September 24, 2024

/EINPresswire.com/ -- The commercial
foodservice equipment market has
experienced robust growth in recent
years, expanding from \$31.25 billion in

2023 to \$33.28 billion in 2024 at a compound annual growth rate (CAGR) of 6.5%. The growth in the historic period can be attributed to increasing demand for quick service restaurants, growth in the food and beverage industry, increasing interest in healthier and gourmet food options, regulatory standards, and increasing demand for equipment that supports food packaging and transportation.

Forecast 2024-2033

Growth Driver Of The Commercial Foodservice Equipment Market

The ongoing expansion of quick service and fast casual restaurants is expected to propel the growth of the commercial foodservice equipment market going forward. Quick-service restaurants (QSRs) are establishments offering fast food with minimal table service, while fast casual restaurants provide higher-quality food and a more relaxed dining experience without full table service. The expansion of quick service and fast casual restaurants is driven by growing consumer demand for convenient, high-quality, and affordable dining options. Commercial foodservice equipment in quick service and fast casual restaurants is utilized to streamline food preparation, enhance efficiency, and maintain high standards of food quality and safety.
