

TunesKit Unveils Innovative Location Changer Tool for iOS and Android Devices

TunesKit announces the launch of Location Changer tool, enabling users to change their GPS location on iOS and Android for enhanced privacy and app experiences.

KOWLOON, HONGKONG, CHINA, September 27, 2024 / EINPresswire.com/ -- TunesKit, a leading provider of software solutions for iOS and Android users, proudly announces the launch of [TunesKit Location Changer](#), an intuitive and powerful tool designed to help users modify their device's GPS location. This revolutionary software opens new possibilities for enhancing privacy, accessing geo-restricted content, and creating an improved experience for gaming and social media enthusiasts.

TunesKit Location Changer allows users to effortlessly [hide location on iPhone](#) and Android devices with just a few clicks. The software lets users set any desired location worldwide without the need for jailbreaking or rooting their device. Whether you're trying to unlock location-based game features, access regional content on apps, or protect your location's privacy, TunesKit Location Changer offers a reliable and quick solution.

“

Whether it's for entertainment, privacy, or exploring new opportunities within apps, TunesKit Location Changer empowers users to enjoy a more flexible and secure experience.”

William Smith

“We're excited to introduce TunesKit Location Changer to help users take control of their virtual presence in a world where location tracking has become the norm,” said William Smith, Chief Product Officer at TunesKit. “Whether

it's for entertainment, privacy, or exploring new opportunities within apps, this tool empowers users to enjoy a more flexible and secure experience.”

With TunesKit Location Changer, users can create custom routes by selecting multiple locations on a map, with the ability to set speeds to mimic walking, cycling, or driving. This feature is ideal for apps that require user movement, like fitness apps or augmented reality games.

Key Features of TunesKit Location Changer

1. Simulate movement by planning custom routes or teleporting your device to any location across the globe.
2. Enhance experiences with location-based apps like Pokémon GO, Tinder, Google Maps, and more.
3. Control the movement speed and create custom paths for GPS travel with realistic simulations.
4. Spoof GPS locations on up to 10 iOS or Android devices simultaneously.
5. Enjoy full functionality without compromising the security of your device.
6. Compatibility with the latest iOS and Android versions.

Who Can Benefit from TunesKit Location Changer?

- Gamers: Fans of location-based games like Pokémon GO can explore new areas, catch rare Pokémon, or attend global events without leaving their home.
- Travel Enthusiasts: Discover geo-locked content in apps like Happn, Hulu, or YouTube, available only in specific regions, by changing your virtual location.
- Social Media Users: Update your location on social media platforms like Instagram or Tinder to connect with new people from different parts of the world.
- Privacy-Conscious Individuals: Safeguard your real location from apps, advertisers, and unauthorized tracking, helping you maintain a higher level of privacy.

Price and Compatibility

TunesKit Location Changer is available for both Windows and macOS. Users can download a free trial from the official TunesKit website, with the full version starting at \$9.95. The software supports all major iOS and Android versions, including the latest updates. For mac computers, it supports macOS 10.11-10.15, macOS 11.5, macOS 12, macOS 13, macOS 14, macOS 15, and for Windows computers, it supports Windows XP, Windows 7/8/10/11.
