

Omni Aesthetics Introduces Groundbreaking Aveli™ Cellulite Solution for Smoother, Firmer Skin

OAKLAND, NJ, UNITED STATES,
September 25, 2024 /

EINPresswire.com/ -- [Omni Aesthetics](https://OmniAesthetics.com/)

is excited to announce the latest addition to its cutting-edge aesthetic treatments: [Aveli™](https://Aveli.com/), a revolutionary solution for cellulite reduction. This state-of-the-art procedure offers a minimally invasive approach to target cellulite at its source, addressing the deep dimples that never responded to all the previously available treatments.

Aveli™ Cellulite Treatment is designed to address one of the most common and frustrating skin concerns—moderate to severe cellulite. Unlike traditional treatments that work from the outside-in, Aveli™ takes a more

direct and effective approach by identifying and releasing the septa bands causing cellulite from the inside-out. Using a handheld device, trained providers can precisely target and release these bands from the inside, resulting in a visible reduction of cellulite dimples. The best part? Results are long-lasting and can be seen in as little as one month post-procedure with minimal downtime.

“

This treatment gives our patients the confidence to feel good in their skin and look great in any outfit.”

Dr. William H Song

outfit.”

[Dr. H. William Song](https://Dr.H.WilliamSong.com/), founder of Omni Aesthetics, stated, “We are thrilled to offer Aveli™ as part of our commitment to providing advanced, effective, and minimally invasive aesthetic solutions. This treatment gives our patients the confidence to feel good in their skin and look great in any

Key Benefits of Aveli™:

- One-Time Procedure: No need for multiple sessions—treat cellulite dimples in just one visit.
- Immediate Results: See improvements quickly as the septa bands causing cellulite are released in real-time.
- Minimal Downtime: Patients can typically resume normal activities within 24-48 hours.

Aveli™ is an excellent option for women seeking long-term cellulite reduction, especially those looking for a solution that fits into their busy lifestyles. Whether used alone or in combination with other body-contouring procedures like liposuction, Aveli™ delivers noticeable results with little recovery time.

About Dr. H. William Song

Dr. H. William Song practiced as a board-certified internal medicine specialist for 15 years then devoted his practice exclusively to aesthetic and regenerative medicine for the next 15 years, serving the community for over 30 years.
