

Global LED driver Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's LED Driver Global Market Report 2024 - Market Size, Trends, And Global Forecast 2024-2033

LANDON, GREATER LONDON, UNITED KINGDOM, September 26, 2024

/EINPresswire.com/ -- The [LED driver market](#) has experienced robust growth

in recent years, expanding from \$6.62 billion in 2023 to \$8.22 billion in 2024 at a compound annual growth rate (CAGR) of 24.1%. The growth in the historic period can be attributed to government initiatives and regulations, declining led component costs, growing environmental awareness, rising urbanization and infrastructure development, increasing demand for energy efficiency.

It will grow to \$18.49 billion in 2028 at a compound annual growth rate (CAGR) of 22.5%."

The Business Research Company

What Is The Estimated Market Size Of The Global LED driver Market And Its Annual Growth Rate?

The LED driver market is projected to continue its strong growth, reaching \$18.49 billion in 2028 at a compound annual growth rate (CAGR) of 22.5%. The growth in the forecast period can be attributed to advancements in

smart lighting solutions, expanding IoT integration, rising demand for sustainable lighting, growing energy efficiency, emergence of connected cities.

Growth Driver Of The LED driver Market

The rising number of smart homes is expected to propel the LED driver market going forward. A smart house is a configuration of appliances and equipment in a home that can be automatically controlled remotely by a networked device and are internet-enabled. The user can control

features since the devices in a smart home are connected via the internet. LED drivers are used in smart homes to control multiple LEDs and take care of all the issues by regulating and controlling the power required for an LED, so an increase in smart homes will propel market growth.

Which Market Players Are Steering the LED driver Market Growth?

Key players in the market include Texas Instruments Incorporated, ams-OSRAM AG, Atmel Corporation, GE Current, ROHM Co Ltd., Macroblock Inc., Semiconductor Components Industries LLC, Cree LED, Signify Holding, Samsung Corporation, Lutron Electronics Co Ltd., NXP Semiconductors, STMicroelectronics, ACE LEDS, BOKE Drivers Co Ltd., Osram GmbH, Maxim Integrated, General Electric Company, ROHM Semiconductors, ON Semiconductor, AC Electronics, Hubbell Inc., Eaton Corporation PLC, Crestron Electronics Inc., Tridonic, Mean Well Enterprises Co. Ltd., Inventronics, Philips, BOKE, LIFUD.

What Are the Dominant Trends in LED driver Market Overview?

Major companies operating in the LED driver market are focused on developing innovative products, such as sport LED drivers, to gain a competitive edge in the market. Sport LED drivers are a type of LED driver that is specifically designed for use in sports lighting applications that are more rugged and durable than standard LED drivers.

How Is The Global LED driver Market Segmented?

- 1) By Supply Type: Constant Current, Constant Voltage
- 2) By Luminaire Type: Decorative Lamps, Integral LED Modules, Reflectors, T Lamps, Type A Lamp
- 3) By Application: Automotive, Consumer Electronics, Lighting Outdoor Display
- 4) By End User: Residential Lighting, Outdoor and Traffic Lighting, Industrial Lighting, Commercial Lighting, Other End Users

Geographical Insights: Asia-Pacific Leading The LED driver Market

Asia-Pacific was the largest region in the market in 2023. The regions covered in the report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

LED driver Market Definition

A LED driver is an electrical component that controls power flow to a single LED or a string of LEDs. It is an essential component of an LED circuit and operating one without the other will lead to system failure. They are used to prevent damage by regulating the power of an LED or a

string.

[LED driver Global Market Report 2024](#) from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global LED driver market report covering trends, opportunities, strategies, and more

The LED driver Global Market Report 2024 by [The Business Research Company](#) is the most comprehensive report that provides insights on LED driver market size, LED driver market drivers and trends, LED driver market major players and LED driver market growth across geographies. This market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
