Growth Driver Of The Infrared Thermometers Market

Rising infectious diseases worldwide are expected to boost the growth of the infrared thermometer market going forward. Infectious diseases are illnesses caused by pathogens that enter the human body. Infrared thermometers are used as temperature measurement devices that allow for mass screening during infectious disease pandemics such as the current COVID-19 infections, severe acute respiratory syndrome, Ebola virus outbreak, and influenza A.

Which Market Players Are Steering the Infrared Thermometers Market Growth?

Key players in the market include OMRON Corporation, Braun GmbH, OMEGA Engineering Inc., HORIBA Ltd., PCE Deutschland GmbH, Weiss Instruments LLC, Thermomedics Inc., Microlife Corporation, Contec Medical Systems Co. Ltd., Fluke Corporation, Optris GmbH, Exergen Corporation, Geratherm Medical AG, PAUL HARTMANN AG, BPL Medical Technologies, Cardinal Health Inc. (formerly Medtronic), American Diagnostic Corporation, Electronic Temperature Instruments Ltd., General Tools & Instruments LLC, Hioki E.E. Corporation, Etekcity Corporation, Extech Instruments Corporation, Flir Systems Inc., Helect Inc., HoldPeak Electric Co. Ltd., iHealth Labs Inc., Infrared Cameras Inc., Kizen LLC, Klein Tools Inc., Lasergrip Technologies LLC.

What Are the Dominant Trends in Infrared Thermometers Market Overview?

Major companies operating in the infrared thermometers market are focused on concentrating their efforts on innovating new solutions such as introducing Bluetooth-enabled infrared thermometers to gain a competitive edge in the market. Such innovative infrared thermometers are used to provide quick and accurate results and help patients automatically transmit the data to healthcare professionals.

How Is The Global Infrared Thermometers Market Segmented?

- 1) By Product Type: Handheld Infrared Thermometers, Pocket Infrared Thermometers, Fixed Mount Infrared Thermometers
- 2) By Measurement Points Type: Ear, Forehead, Multifunction
- 3) By Distribution Channel: Retail Stores, Online Channels
- 4) By Application: Medical, Veterinary
- 5) By End User: Hospital and Clinics, Ambulatory Surgical Centers, Other End Users

Geographical Insights: North America Leading The Infrared Thermometers Market

North America was the largest region in the market in 2023. Asia-Pacific is expected to be the fastest-growing region in the market share during the forecast period. The regions covered in the report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Infrared Thermometers Market Definition

An infrared thermometer is a sensor that comprises a lens that focuses infrared (IR) energy onto a detector, which transforms the energy into an electrical signal that can be displayed in temperature units after being corrected for variations in ambient temperature.

[Infrared Thermometers Global Market Report 2024](#) from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global infrared thermometers market report covering trends, opportunities, strategies, and more

The Infrared Thermometers Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on infrared thermometers market size, infrared thermometers market drivers and trends, infrared thermometers market major players and infrared thermometers market growth across geographies. This market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.

What Does The Business Research Company Do?

The Business Research Company publishes over 15,000 reports across 27 industries and 60+ geographies. Our research is powered by 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. We provide continuous and custom research services, offering a range of specialized packages tailored to your needs, including Market Entry Research Package, Competitor Tracking Package, Supplier & Distributor Package, and much more.

Our flagship product, the Global Market Model, is a premier market intelligence platform delivering comprehensive and updated forecasts to support informed decision-making
