

# Cloud Computing In K-12 Market Next Big Thing: Adobe System, VMware, NetApp

*According to HTF Market Intelligence, the Global Cloud Computing In K-12 Market is Anticipated to grow at a CAGR of 27% during the forecast period.*

PUNE, MAHARASHTRA, INDIA,  
September 25, 2024 /

EINPresswire.com/ -- HTF Market Intelligence published a new research document of 150+pages on [Cloud Computing In K-12 Market](#) Insights, to 2030" with self-explained Tables and charts in a presentable format. In the Study, you will find new evolving Trends, Drivers, Restraints, and Opportunities generated by targeting

market-associated stakeholders. The growth of the Cloud Computing In K-12 market was mainly driven by the increasing R&D spending by leading and emerging players, however, the latest scenario and economic slowdown have changed complete market dynamics.

Cloud Computing In K-12 Market

“

Stay up-to-date with Global Cloud Computing In K-12 Market Research offered by HTF MI. Check how key trends and emerging drivers are shaping this industry's growth.”

Nidhi Bhawsar

Some of the key players profiled in the study are Adobe System Inc. (United States), Cisco System Inc. (United States), IBM Corporation (United States), VMware Inc. (United States), Microsoft Corporation (United States), NEC Corporation (United States), NetApp Inc. (United States), Amazon Web Services (United States), Ellucian (United States), Dell (United States).

Definition:

Cloud computing in K-12 education refers to the use of cloud-based services, platforms, and infrastructure to deliver educational resources, tools, and applications to students, teachers, and administrators in kindergarten through 12th grade (K-12) schools. Rather than storing data and running applications on local computers or servers, cloud computing leverages remote servers and networks to provide on-demand access to computing resources over the internet.

#### Market Trends:

The rapid transition to remote learning has highlighted the importance of robust infrastructure to support online education.

#### Market Drivers:

K-12 schools are undergoing a digital transformation, shifting from traditional teaching methods to more technology-driven approaches. Cloud computing enables schools to modernize their IT infrastructure, providing access to a wide range of educational resources, tools, and applications from any location with internet access.

#### Fastest-Growing Region:

Asia Pacific

#### Dominating Region:

North America

#### Market Leaders & Development Strategies:

On 2nd September 2021, The privately held, California-based Clever, one of the most popular digital learning platforms in U.S. K-12 education, has been acquired by Kahoot!, a worldwide learning platform provider. Instructure's dedication to creating an open, transparent, and integrated teaching and learning platform for the education sector is demonstrated and strengthened by the acquisition.

The titled segments and sub-section of the market are illuminated below:

The Study Explore the Product Types of Cloud Computing In K-12 Market: K-12, Higher Education

Key Applications/end-users of Cloud Computing In K-12 Market: Higher Education, Secondary Education, Primary Education, Early child Education

With this report you will learn:

- Who the leading players are in Cloud Computing In K-12 Market?
- What you should look for in a Cloud Computing In K-12
- What trends are driving the Market
- About the changing market behaviour over time with strategic view point to examine

competition

Also included in the study are profiles of 15 Cloud Computing In K-12 vendors, pricing charts, financial outlook, swot analysis, products specification & comparisons matrix with recommended steps for evaluating and determining latest product/service offering.

Who should get most benefit from this report insights?

- Anyone who are directly or indirectly involved in value chain cycle of this industry and needs to be up to speed on the key players and major trends in the market for Cloud Computing In K-12
- Marketers and agencies doing their due diligence in selecting a Cloud Computing In K-12 for large and enterprise level organizations
- Analysts and vendors looking for current intelligence about this dynamic marketplace.
- Competition who would like to benchmark and correlate themselves with market position and standings in current scenario.

Make an enquiry to understand outline of study and further possible customization in offering

Quick Snapshot and Extracts from TOC of Latest Edition

- Overview of Cloud Computing In K-12 Market
- Cloud Computing In K-12 Size (Sales Volume) Comparison by Type (2024-2030)
- Cloud Computing In K-12 Size (Consumption) and Market Share Comparison by Application (2024-2030)
- Cloud Computing In K-12 Size (Value) Comparison by Region (2024-2030)
- Cloud Computing In K-12 Sales, Revenue and Growth Rate (2024-2030)
- Cloud Computing In K-12 Competitive Situation and Current Scenario Analysis Strategic proposal for estimating sizing of core business segments Players/Suppliers High Performance Pigments Manufacturing Base Distribution, Sales Area, Product Type Analyse competitors, including all important parameters of Cloud Computing In K-12
- Cloud Computing In K-12 Manufacturing Cost Analysis Latest innovative headway and supply chain pattern mapping of leading and merging industry players
