

Alpine Armoring Unveils First-Ever Armored Electric Pickup Truck

Alpine Armoring introduces the Typhoon, the first bulletproof EV truck armored to Level A9/B6+, combining security with zero-emission transportation.

CHANTILLY, VA, UNITED STATES,
September 25, 2025 /

EINPresswire.com/ -- [Alpine Armoring](#) today announced the launch of the Typhoon®, a new electric armored pickup truck. Built on the Ford F-150 Lightning chassis, the [Typhoon® armored EV pickup truck](#) is the first vehicle of its kind to be armored to [Alpine Level A9 \(CEN B6+\)](#) ballistic protection standards.

Alpine Armoring's Typhoon® combines electric vehicle technology with world-class ballistic protection.

The vehicle combines electric mobility with ballistic protection, offering up to 580 horsepower with zero emissions through Ford's dual eMotor system. Designed for quiet operation and long-range travel, the Typhoon® aims to meet growing demand for secure and sustainable armored transportation.

“

Besides being a high-performance EV, the Typhoon® is a testament to our dedication to excellence in both security and sustainability.”

Fred Khoroushi, CEO of Alpine Armoring

The Typhoon® armored EV pickup truck features Alpine Armoring's certified ballistic materials throughout key structural areas, including doors, pillars and body panels. All original windows have been replaced with multi-layered ballistic glass, including a custom transparent sunroof. At Level A9 (CEN B6+), it withstands rounds from 7.62x39 (AK), 5.56x45 (AR-15), and 7.62x51 (M80) rifles, with floor protection against up to two DM51 hand grenades.

Fred Khoroushi, CEO of Alpine Armoring, said, "Besides

being a high-performance EV, the Typhoon® is a testament to our dedication to excellence in both security and sustainability. We designed this truck not only to meet our clients' needs but to

set a new benchmark in our industry."

The interior offers leather seating, advanced connectivity, and a digital interface, maintaining the Ford Lightning's spacious layout. Optional features include two-way intercoms, multi-siren systems, satellite phones, Starlink Wi-Fi, night vision cameras, and secure weapon vaults.

The vehicle's conversion includes run-flat tire inserts, upgraded heavy-duty suspension, reinforced doors and hinges, and an enhanced braking system to accommodate the added weight of the armoring.

About Alpine Armoring

Alpine Armoring is a company headquartered in Chantilly, Virginia, a suburb of Washington D.C., with a broad multinational presence for the past 30 years. It designs, develops, integrates, manufactures, markets, and sells quality custom-armored vehicles for a diverse range of clients, including corporations, law enforcement agencies, governments, embassies, the United Nations, NGOs, and individuals worldwide.
