

4Blades Digital Showcases Unique Architectural Design in Exclusive Photo Shoot for One River North Project in Denver

Denver, CO – 4Blades Digital, a premier architectural photography and videography firm, proudly announces the completion of an exclusive photo shoot for the One River North project, located in Denver’s vibrant River North (RiNo) neighborhood. This groundbreaking development sets a new standard for luxury residential architecture, seamlessly blending urban living with sustainable design principles.

One River North, a marquee project by MAD Architects in collaboration with Davis Partnership, features a mesmerizing “canyon” design etched into its façade. This innovative design not only enhances aesthetic appeal but also integrates biophilic elements, fostering a harmonious and sustainable living environment. The building offers 193 residential units, with 10% designated as affordable housing, and an array of amenities including a state-of-the-art fitness center, a sophisticated clubroom, and a rooftop deck offering panoramic mountain views. Slated for completion in 2024, One River North is poised to offer a unique living experience at the intersection of 40th Avenue and Blake Street.

“Our mission has always been to showcase incredible projects within the Construction and Architecture worlds. There’s not much else in Denver, or in the country, as unique as One River North right now. This project is a testament to what is possible within Architecture, Engineering, and Construction. As a previous Project Manager in the Construction Photography Industry, this project is truly a masterpiece and the folks responsible should be incredibly proud of themselves.” said Calvin Ludwig, Founder of 4Blades Digital. “This project has pushed the envelope in Denver’s Architectural world and we love to see it.”

The photo shoot includes dynamic aerial shots and intricate close-ups that highlight the project’s distinctive architectural features and unique construction processes required for such a complicated building. A captivating teaser video has been shared on 4Blades Digital’s social media channels and One River North’s social media channels, providing a visual preview of this incredibly unique project.
