

# STUDIO CONTROLS COM 64 v7.0 RELEASED

*Industry Tested, Developer Trusted 64-Bit  
ActiveX Component Software  
for Enterprise Windows UX Application  
Design*

WINNIPEG, MANITOBA, CANADA,  
September 26, 2024 /  
EINPresswire.com/ -- DBI Technologies  
Inc. is proud to announce the release  
of [Studio Controls COM 64](#) version 7.0,  
the development community's award  
winning choice for User Experience  
design, Scheduling and Data  
Presentation 64-bit [ActiveX component  
software](#).

DBI Technologies Inc. has been  
providing application developers with  
industry leading software components  
for twenty eight years, giving

developers working in Microsoft Access, Visual C++, Visual Basic for Applications (VBA), Visual FoxPro, LabVIEW and other Windows-based IDE's the time-saving tools they need to bring commercial software to market faster and with uncommon functionality. Today, Studio Controls

COM 64 comprises a paired collection of 36 components for building End-to-End Enterprise Data Visualization solutions ranging healthcare appointment scheduling to manufacturing and production line planning. DBI's component software has been industry tested and is developer trusted.

Studio Controls COM 64  
saved the day for us,"  
*Neil Gordon, Black Rock*

Visualizing Enterprise Data with Studio Controls COM 64 v7.0

Studio Controls COM 64 version 7.0. introduces nine (9) new 64-bit controls expanding a developers' toolbox with menuing, content navigation, data input, data presentation and snap-in user interface presentation tools. The new control introductions offer developers increased flexibility for building enterprise dashboard and content rich Windows apps. Many enhancements have been incorporated into the collection of Studio Controls COM 64 components, too many to mention here. A detailed list of feature enhancements can be found at

<https://www.DBI-Tech.com/StudioControls/COM64>.

Studio Controls COM 64 includes a full collection of 64-bit and 32-bit development controls. Helping developers launch their projects quickly. Each DBI component software product includes a complete feature collection of code samples demonstrating best practices and how to quickly integrate DBI's award winning controls in Microsoft Access and Visual C++. Studio Controls COM 64 has become a default go-to product

for many VBA software developers in the financial services industry. Brokerage houses, financial management companies, investment firms, banks and the like all rely on DBI's industry hardened controls for extending their financial modelling requirements. "Studio Controls COM 64 saved the day for us," said Neil Gordon, Black Rock.

Studio Controls COM and Studio Controls COM 64 have proven success under the stresses of healthcare applications to the James Web Space Telescope data analytics. DBI Technologies Inc. continues to extend incredible value for Windows developer community.

A single developer's license of Studio Controls COM 64 is available for only \$783 per license. Complete product licensing details including samples with integrated PEM viewers in Visual Basic, Visual FoxPro and Microsoft Access / VBA and Visual C++ formats can be found at: <https://www.dbi-tech.com>.
