

# Future Electronics Announces Digital Campaign Featuring KYOCERA AVX 9169-000 Series Wire-to-Board Connectors

*Future Electronics is featuring KYOCERA AVX 9169-000 Series Wire-to-Board Connectors in a recently launched digital campaign.*

POINTE CLAIRE, QUEBEC, CANADA,  
September 30, 2024 /

[EINPresswire.com/](https://www.EINPresswire.com/) -- Future Electronics, a global leading distributor of electronic components, is pleased to announce the availability of the new KYOCERA AVX 9169-000 Series Wire-to-Board Connectors. Designed for enhanced functionality and reliability, this innovative connector series is packed with key features, making it ideal for a wide range of applications.

KYOCERA AVX expands its card edge product offering with the 9169-000 Series, a one-piece wire-to-board solution leveraging two proven solderless contact technologies. The series combines Insulation Displacement (IDC) Contacts for wire termination and Beryllium Copper Compression Contacts for board mating, ensuring a robust and reliable connection.

The 9169-000 Series is designed to support PCB boards with a 1.6mm thickness and gold-plated pads, offering a tin plating option for versatility. With a current rating of up to 3A per contact and UL approval, this connector meets the demands of a broad range of industries.

With its high-performance contact system and flexible design options, the KYOCERA AVX 9169-000 Series Wire-to-Board Connectors are perfect for demanding applications across automotive, industrial, and consumer electronics markets.

For more information, or to order the KYOCERA AVX 9169-000 Series, visit:
