

Virus Filtration Global Market 2024 To Reach \$8.71 Billion By 2028 At Rate Of 12.4%

Virus Filtration Global Market Report 2024 – Market Size, Trends, And Forecast 2024-2033

LONDON, GREATER LONDON, UNITED KINGDOM, October 2, 2024 /EINPresswire.com/ -- The virus filtration market has experienced robust growth in recent years, expanding from \$4.88 billion in 2023 to \$5.45 billion in 2024 at a compound annual growth rate (CAGR) of 11.7%. The growth in the historic period can be attributed to rise in biopharmaceutical production, growing incidence of viral contaminations, global expansion of biopharmaceutical companies, awareness of viral safety, focus on monoclonal antibody production, demand for single-use systems, increased biomanufacturing capacities, integration of continuous manufacturing.

Which Market Players Are Driving [The Virus Filtration Market Growth?](#)

Key players in the market include Merck & Company Inc., GE Healthcare, Thermo Fisher Scientific Inc., Lonza Group Ltd., Pall Corporation, Charles River Laboratories International Inc., Sartorius AG, Asahi Kasei Medical Co. Ltd., WuXi AppTec, Danaher Corporation, Sigma-Aldrich Corporation, Clean Cell Inc., Pendotech, Purafil Inc., Qiagen NV, Parker Hannifin Corporation, Eaton Corporation, Freudenberg Group, Entegris Inc., Meissner Filtration Products Inc., Koch Membrane Systems Inc., Graver Technologies LLC, Amazon Filters Ltd., Cobetter Filtration Equipment Co. Ltd., Sterlitech Corporation, Membrane Solutions LLC, Advantec MFS Inc., GVS Group, Porvair Filtration Group, Eaton Filtration LLC.

What Are the Key Trends That Influence The Virus Filtration Market Size?

Major companies operating in the virus filters market are focusing on innovating products with technology, such as the G1 AC Filters, to provide reliable services to customers. G1 AC filters are filters for air conditioners that protect against airborne viruses, bacteria, and fungi.

How Is The Global Virus Filtration Market Segmented?

- 1) By Type: Kits And Reagents, Services, Filtration Systems, Other Types
- 2) By Application: Medical Devices, Water Purification, Air Purification, Biologicals, Vaccines And Therapeutics, Blood And Blood Products, Cellular And Gene Therapy Products, Other Applications
- 3) By End-User: Pharmaceutical And Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, Medical Device Companies

Geographical Insights: North America Leading The Virus Filtration Market

North America was the largest region in the market in 2023. Asia-Pacific is expected to be the fastest-growing region in the report during the forecast period. The regions covered in the report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Virus Filtration Market Definition

Virus filtration is a method by which the physical removal of potential viruses is achieved from the manufacturing process streams. Virus filters provide a key line of defense against the introduction of adventitious viruses into this important class of medicines. Virus filters are distinct from other filter types in that filter manufacturers have evaluated and optimized the robustness and efficiency of their virus removal performance and have developed integrity tests correlated to virus removal.

[Virus Filtration Global Market Report 2024](#) from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global virus filtration market report covering trends, opportunities, strategies, and more

The Virus Filtration Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on virus filtration market size, virus filtration market drivers and trends, virus filtration market major players and virus filtration market growth across geographies. This market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
