

Louisiana Mesothelioma Victims Center Urges the Family of a Former School-Hospital Maintenance Worker with Lung Cancer or Mesothelioma in Louisiana to Call the Gori Law Firm About Compensation-Get Better Results

NEW ORLEANS , LA, UNITED STATES, October 3, 2024 /EINPresswire.com/ -- The Louisiana Mesothelioma Victims Center is urging the family of a former school or hospital maintenance worker with just diagnosed lung cancer or mesothelioma anywhere in Louisiana to please call the Gori Law Firm anytime at 866-532-2106 to discuss financial compensation. School and hospital workers were particularly susceptible to being exposed to asbestos- especially if they worked before the mid-1980s. Facilities like schools or hospitals frequently had boiler rooms that were loaded with asbestos, as well as ceiling tiles that contained asbestos. In many instances schools or hospitals used paint that contained asbestos.

The group says, "Over the years we have talked to numerous former school and or hospital maintenance workers who had developed asbestos exposure lung cancer and or mesothelioma and these types of workers might have had routine exposure to asbestos. Frequently school or hospital workers maintained their workplaces boilers, replaced broken or cracked ceiling tiles, removed paint from walls-doors that contained asbestos. School or hospital maintenance workers might have had asbestos exposure equal to that of a shipyard worker in Louisiana.

"If your husband or dad was a school or hospital maintenance worker and they have just been diagnosed with lung cancer or mesothelioma anywhere in Louisiana please call the Gori Law Firm anytime at 866-532-2106. The Gori Law Firm has an office in New Orleans and when it comes to compensation for people with asbestos exposure lung cancer or mesothelioma in Louisiana they have no equal." www.gorilaw.com
