

Global Cryocooler Market Size, Share And Growth Analysis For 2024-2033

Cryocooler Global Market growth, size, and overview by 2024-2033

LONDON, GREATER LONDON, UNITED KINGDOM, October 1, 2024

/EINPresswire.com/ -- The cryocooler market has experienced robust growth in recent years, expanding from \$2.77 billion in 2023 to \$3.02 billion in 2024

at a compound annual growth rate (CAGR) of 9.1%. The growth in the historic period can be attributed to military and defense applications, medical equipment cooling needs, emergence of cryogen-free systems, rise in adoption for research applications, increased accessibility and affordability.

What Is The Estimated Market Size Of The Global Cryocooler Market And Its Annual Growth Rate?

The cryocooler market is projected to continue its strong growth, reaching \$4.24 billion in 2028 at a compound annual growth rate (CAGR) of 8.9%. The growth in the forecast period can be attributed to growing demand in quantum computing, energy storage and superconductivity applications, rising demand for

cryocoolers in electronics, expansion of space and satellite technologies, increased use in cryogenic storage and transportation.

Growth Driver Of The Cryocooler Market

The growing healthcare industry is expected to propel the growth of the cryocoolers market going forward. The healthcare industry is a broad term that encompasses a wide range of businesses and organizations that provide medical services, manufacture medical equipment or

drugs, provide medical insurance, or otherwise facilitate the provision of healthcare to patients. Cryocoolers play a vital role in the healthcare industry for achieving the cryogenic temperatures required for superconducting magnets used in magnetic resonance imaging (MRI) machines and for cooling highly sensitive detectors in positron emission tomography (PET) scanners.

Which Market Players Are Steering the Cryocooler Market Growth?

Key players in the market include Sumitomo Heavy Industries Ltd., Sunpower Inc., RICOR Systems, Northrop Grumman Corporation, Cryomech Inc., Chart Industries Inc., Janis Research Company LLC, Advanced Research Systems Inc., Superconductor Technologies Inc., Stirling Cryogenics B.V., Cobham PLC, Brooks Automation Inc., Honeywell International Inc., The Lockheed Martin Corporation, L3 Technologies Inc., Air Liquide S.A., Devex, Raytheon Technologies Corporation, Refrigiwear Inc., Refrigeration Engineering Inc., Sanyo Denki Co. Ltd., Scitec Instruments Ltd., Secop Group Holding GmbH, Shimadzu Corporation, Siemens Energy AG, Supercon Inc., Thermo Fisher Scientific Inc., Titan Cryogenics, UHV Design Ltd., Thales Cryogenics B.V.

What Are the Dominant Trends in [Cryocooler Market Overview](#)?

Major companies operating in the cryocoolers market are focused on developing innovative products, such as high capacity cryocoolers, to gain a competitive edge in the market. A high capacity cryocooler is a device that can produce a large amount of refrigeration at cryogenic temperatures, typically below 100 Kelvin (-173 degrees Celsius).

How Is The Global Cryocooler Market Segmented?

- 1) By Offering: Hardware, Services
- 2) By Type: Pulse-Tube (PT), Gifford-McMohan (GM), Joule-Thomson (JT), Brayton, Stirling
- 3) By Operating Cycle: Open-Loop Cycle, Closed-Loop Cycle
- 4) By Temperature: 1K-5K, 5.1K-10K, 10.1K-50K, 50.1K-100K, 100.1K-300K
- 5) By Application: Space, Healthcare, Military and Defense, Other Applications

Geographical Insights: North America Leading The Cryocooler Market

North America was the largest region in the market in 2023 and is expected to be the fastest-growing region in the market report during the forecast period. The regions covered in the report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Cryocooler Market Definition

A cryocooler is a mechanical refrigerator that is used to cool an application to cryogenic temperatures. The primary application of cryocooling is to cool equipment that heat up quickly.

[Cryocooler Global Market Report 2024](#) from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the global cryocooler market report covering trends, opportunities, strategies, and more

The Cryocooler Global Market Report 2024 by [The Business Research Company](#) is the most comprehensive report that provides insights on cryocooler market size, cryocooler market drivers and trends, cryocooler market major players and cryocooler market growth across geographies. This market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.

What Does The Business Research Company Do?

The Business Research Company publishes over 15,000 reports across 27 industries and 60+ geographies. Our research is powered by 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. We provide continuous and custom research services, offering a range of specialized packages tailored to your needs, including Market Entry Research Package, Competitor Tracking Package, Supplier & Distributor Package, and much more.

Our flagship product, the Global Market Model, is a premier market intelligence platform delivering comprehensive and updated forecasts to support informed decision-making.
